Before you start

You need a Canva account to edit the template. A free Canva account is sufficient unless you replace elements with Canva Pro content.

QUICK NOTE

This PDF is your access guide. Keep it for future reference. The Canva template link above should open a copy of the design so you can edit your own version without changing the original.

Open and edit in Canva

The template is designed to be easy to customize. Keep the refined editorial structure and only change what supports your own birthday message.

1 Open the template

Click the template link on page 1. Canva will open the design in your browser or app.

2 Create your own copy

Choose "Use template" or the equivalent Canva option when prompted. This keeps the original template unchanged.

3 Replace the sample text

Update the birthday greeting, recipient name, short message, and inside text with your own wording.

4 Keep the hierarchy

Use the existing type sizes, spacing, alignment, and section order as your baseline. Avoid adding too many decorative elements.

5 Check every detail

Remove unused sample content and carefully verify names, spelling, punctuation, and message placement before exporting.

TIP

This template is set up as a 5 x 7 in folded card (10 x 7 in flat). Page 1 is the outside and Page 2 is the inside. Keep important text away from the fold line and outer edges.

Make it yours, then download

Customize carefully, then export a final file that stays sharp, balanced, and ready for print or digital sharing.
