Before you start

You need a Canva account to edit the template. A free Canva account is sufficient unless you replace elements with Canva Pro content.

QUICK NOTE

This PDF is your access guide. Keep it for future reference. The Canva template links above open a copy of the design so you can edit your own version.

Open and edit in Canva

The template is designed to be easy to customize. Keep the structure clean and only change what supports your own information.

1 Open your preferred size

Click the US Letter or A4 link on page 1. Canva will open the template in your browser or app.

2 Create your own copy

Choose "Use template" or the equivalent Canva option when prompted. This keeps the original template unchanged.

3 Replace the sample text

Update your name, contact details, recipient information, date, greeting, letter content, and closing with your own information.

4 Keep the hierarchy

Use the existing text sizes, spacing, alignment, and section order as your baseline. Avoid adding too many styles or extra decorative elements.

5 Check every section

Remove unused sample content and make sure names, dates, company details, contact information, and links are accurate before exporting.

TIP

For the cleanest and most professional result, keep your cover letter to one page. If the content feels crowded, shorten the text rather than reducing the font size or adding a second page.

Make it yours, then download

Customize carefully, then export a final file that stays sharp and easy to read.
